LUXURY HOMES**

TULSA'S NEW STUDIO ROW

HOME

Architect, Residential

Architects transform home dreams into realities, but you should only trust the highest rated designers to draw up your new dwelling space. In Tulsa, **Jack Arnold** combines the elegance of times past with the modern styles popular today, and **John Duvall** of Duvall Architects listens carefully to the wants and needs of clients. **Brian Freese** of Freese Architecture has a sharp eye for every detail, and **Michael R. Dankbar** of

Unique Residential Design brings an old-world, European vibe to his distinct homes.

In OKC, **Rand Elliott** of Elliott + Associates Architects takes a minimalist, clean approach to his homes. Mixing the beautiful and the functional, the team at **Fitzsimmons Architects** collaborates to create stellar homes, and **Sam Gresham** of Sam Gresham Architect creates diverse, affordable housing for people across the Midwest.

Architect, Commercial Firm

KKT Architects Inc. has a heavy stake in Tulsa's architecture, with projects like the Guthrie Green pavilion and Fly Loft. The team members at **MATRIX Architects Engineers Planners** collaborated on the BOK Center and Tulsa Convention Center. And don't forget about **Selser Schaefer Architects**, who honor the past and future of Tulsa; team members completed the TCC Center for Creativity and Tulsa Ballet's Hardesty Center for Dance Education.

HSEarchitects in Oklahoma City is a small yet mighty architectural powerhouse of talent. If you're looking to retain creative control, **D5 Architecture** puts the client in the driver's seat, and you can thank **TAP Architecture** for the historical preservation of buildings like the Skirvin Hilton Hotel.

Bathroom Fixtures

Great fixtures can turn a bathroom from blah to beautiful. **Heatwave Supply and Showroom** carries a plethora of brands and models in its 6,000 square foot showroom, and **Hoffman Fixtures Co.** can provide you everything from counter tops to shower doors. **Ferguson Bath, Kitchen and Lighting Gallery** was a top reader pick in Tulsa and OKC and combines friendly staff with a wide selection of products.

Expressions Home Gallery in OKC, formerly Morrison Supply Company, mixes luxury and functionality for the perfect bathroom. And for unique and custom fixtures, visit **Designer Hardware by Faye**.

Cabinetry

The right cabinet can completely transform a room. **Mill Creek Lumber** has you covered for custom cabinets, plus doors and moldings. **Jay Rambo Co.**'s clean and sleek designs are perfect for the modern home, and **Sullivan's Custom Cabinetry** has been a reliable Tulsa go-to since 1980.

Northwest Building Supply in OKC is all about the customer's satisfaction, and **Cooper Cabinet Systems** has cabinet options for a variety of homes or businesses. You can also head to **Monticello Cabinets and Doors** for classic, timeless cabinets that will never go out of style.
